“ I remember Aunt Jean as a quiet gentle woman who loved her family and worked hard on the farm. As a child I was fascinated by the process of milking and seeing the big steel containers of my favourite drink. I recall her saying that when Ron was very small she would have him with her on the tractor. Farming was never 9-5 but their labour was what fed our communities.

My condolences to Ron, Beth and all those family & friends who love her. She will be missed but always remembered. Love Lois Barlow
