“ I absolutely love Billy the Kid. He was such a great story teller and had so many stories to share. It saddens me that we didn't have more time to get to know each other but he shared so many memories of his family with me, his life growing up and of his time in the service that I feel he had a wonderful and eventful life. I will miss our talks and the sound of his voice when he gets excited about this that or the other thing. I want to thank his family for letting me be part of his life and know that my heart is breaking for your loss. - Nanette
